

Programme

0930 - 0950 Doors Open & Networking

Session One: The Future of ConTech

0950 - 1100

To meet the future demands of growing populations and the need for economic growth, the property and construction industry must look to smarter, more efficient ways to design and build, not just as a means to keep with the UK's development, but also to help create spaces that are smarter, more resilient and environmentally friendly. In this session we will hear from experts from the property and construction sectors on the real future of ConTech over the coming years via a thought leadership discussion and interactive Q&A.
