

Programme

0845 - 0910 Doors Open & Networking

Keynote

0910 - 0945

As the leading trade association for the nuclear industry, the NIA has its pulse on the sector like nobody else. In this opening keynote they'll share their insights, trends and growth opportunities they're identifying across the area.

Nuclear Industry Association; Tim Stone, Chair

0945 - 1000 Networking & Exhibition

Session One: The UK's Nuclear Industry

1000 - 1100

In this session we will hear from a multitude of nuclear stakeholders, about how the country is currently using nuclear power, and how it can utilize it more.

Session Sponsor: ([Available – click for details](#))

GE Hitachi; David Powell, Vice President UK Sales GE Hitachi Nuclear Power Plants

UK Atomic Energy Authority; Paul Methven, Director

National Nuclear Laboratory; Dr Fiona Rayment, Chief Science & Technology Officer

1100 - 1130 Networking & Exhibition

Session Two: Hinkley Point C

1130 - 1200

In this session we will hear from the masterminds behind the Hinkley Point C plant, and how development is important to them including the development of two new nuclear reactors.

Hinkley Point C; Andrew Cockcroft, Senior Manager – Community Relations

1200 - 1215 Networking & Exhibition

Session Three: Rolls Royce

1215 - 1300

In this session we will hear from Rolls Royce who have plans to build 60 mini Nuclear Reactors, and how this will help the UK achieve their zero carbon ambitions.

Chair: **BDB Pitmans;** Richard Marsh, Partner

Rolls Royce; Tom Samson, Interim CEO, UK Small Modular Reactors Consortium

1300 - 1315 Networking & Exhibition

Session Four Sizewell C

1315 - 1345

In this session we will hear from Sizewell and EDF about their ongoing development ambitions for Sizewell C and how this will affect the surrounding areas.

Sizewell C / EDF Energy; Julia Pyke, Director of Financing

1345 - 1400 Networking & Exhibition

Session Five: Sellafield

1400 - 1430

In this session we will hear from Sellafield about their ongoing ambitions regarding development, and how this is important to the North of England.

Sellafield Ltd; John Berry, Senior Supply Chain Manager

1430 - 1445 Networking & Exhibition

Session Six: National Nuclear Laboratory

1445 - 1515

The National Nuclear Laboratory will share insight into the release of their recent paper on how nuclear power can be utilised for other applications such as heating and hydrogen.

National Nuclear Laboratory; James Murphy, Chief Strategy Officer

1515 - 1530 Networking & Exhibition

Session Seven: TerraPower

1530 - 1600

TerraPower will share insight into their upcoming work in the nuclear industry on nuclear reactor technology including the Natrium™ and the Molten Chloride Fast Reactor.

TerraPower; Christopher Levesque, President and CEO

1600-1630 Networking, Exhibition & Close
