Event Overview

Cambridgeshire and Peterborough currently has a population of 1.3 million people, which is estimated to grow to 1.5 million by 2031. The region hosts a number of globally significant business clusters, world class research capacity linked to universities, a number of thriving market towns, and is the UK's leader in agriculture, food and drink. The area boasts 700,000 jobs, 60,000 enterprises and generates £30 billion per annum.

Together with another £1+bn being pumped into the region by the Government new houses and are planned and being built at a significant rate and there is more money is going into Cambridgeshire than at any time since the Victorian age.

The foundations have been put in place by the Mayor and Combined Authority, the LEP and Cities and with Government support in key areas such as Infrastructure and Housing starting to come forward the East of England is all set to start a massive growth cycle.

The Second Cambridgeshire and Peterborough Economic Growth Conference takes place on December 5th in Cambridge and like last year will be a day of discussion and opportunity with the region's business and public-sector leaders coming together to discuss the key business themes and opportunities for growth.

Building on last year's event and the devolutionary advances that have been made over the last 12 months this conference will showcase the region's potential and allow you to hear from those businesses that are operating successfully within the current economic climate. We aim to bring you more business leaders and more opportunities for you to listen to and meet the people that are key to your business.
